Community and School Talks

Version 1: March 2020

Thank you for your request to have one of our wildlife volunteers attend your school/facility to provide an educational talk.

Wildcare Australia Inc. is a non-profit, volunteer-based organisation and has very limited resources available to conduct educational programs for children. Our focus is on providing adult training workshops to wildlife rescuers and carers. The majority of our volunteers work full time unfortunately, which makes it difficult to offer talks during school hours.

There are a number of organisations, which have developed a range of comprehensive programs to suit a variety of ages. We have listed below a selection of those organisations and encourage you to contact them to discuss your request.

Green Heroes

Green Heroes is a local non-profit organisation, which aims to connect children and young people with the natural world and engage them in meaningful conservation activities. The focus of their action programs is to preserve and create habitats for native wildlife and to support the work of wildlife rescue organisations.

Information about Green Heroes' programs can be found at:

<https://www.facebook.com/greenheroes.org.au/>

Wild Rangers Wildlife Encounters

Covers Gold Coast, Brisbane and surrounding areas and offers a variety of programs suitable for children of all ages. Provides interactive and educational talks on a variety of topics and have captive-bred wildlife which they can bring along.

Currumbin Wildlife Sanctuary

The sanctuary offers a variety of excursions and incursions for a variety of ages.
